

The EU Baltic Sea Strategy Flagship project Baltic Master II invites you to

## Safe and Clean Shipping in the Baltic Sea - Concrete Actions -

**26 January - 2011, Swedish Parliament, Stockholm**

Maritime waste and spills know no borders! The Baltic Sea is a particularly sensitive sea in urgent need of pro-active measures to handle maritime pollution and secure preparedness for the major oil spill that will inevitably strike our coastal areas in the future. The award winning Baltic Master project presents the latest scientific findings and best practice activities concerning the maritime safety of the Baltic Sea.
